Technical Skills

- Java | SpringBoot | Python | JavaScript | React.js | Next.js | Node.js | Redux | jQuery | Bootstrap | Tailwind CSS | CSS | HTML | Git | PHP | MySQL
- Azure | Cloud Computing | OOP | Algorithms | Data Structures | Data Pipelines | Databases | Operating Systems | Spark | Kafka | Data Modelling | ETL Tools | Oracle DBA

Soft Skills – Communication | Team player | Research | Critical Thinking | Bias for action | Deliver results

Experience

PriBank | Java, SpringBoot, MySQL, JavaScript

Software Engineer Intern - (Back End) | September 2024 – December 2024, Pristina, Kosovo

- Working on the service desk platform, managing staff accounts, and updating the client registration and configuration manual.
- Developed and maintained backend services, ensuring efficient operation.
- Collaborated with the team to resolve issues and enhance platform functionality.
- Contributed to documentation and guides for internal and client use.

Codeway Solutions | Java, JavaScript, React, HTML, MySQL, PHP

Full Stack Developer Intern | April 2024 – May 2024, Pristina, Kosovo

- Completed a 4-week internship program collaborating with team members, and expanding my skills in full-stack development, data structures, algorithms, and code architecture.
- Contributed to the development of a Job board platform using Java, JavaScript and React aimed at improving user experience and streamlining job search processes.

Education

UBT – University for Business and Technology

Pristina, Kosovo

Bachelor of Science in Computer Science

Oct 2021 – 2024

- Coursework: Operating Systems, Cybersecurity, Algorithms and Data Structures, Lab1, Lab2, Multicore Programming, Software Engineering, Web Engineering, Database Systems

Projects

Movie Review Application (Java, SpringBoot, React, MongoDB)

- Application that features a separation of concerns between the client code and the server code.
- Developed using Java Spring Boot for the backend, and React for frontend.

Bank Management System Clone (Java, JavaFX, MySQL)

- Developed a system that allows users to open accounts, perform transactions, and check balances.
- Implemented multithreading to handle multiple transactions simultaneously and Built a simple user interface using JavaFX.
